HORIZONS®
Springside Chestnut Hill Academy

Please support this tuition-free summer experience to strengthen area children's academic skills and opportunities for the future.

Horizons at SCH provides summer enrichment opportunities for children from under-resourced communities. This summer, Horizons at SCH will offer its second year of programming for Kindergarten and first-grade students from Henry Houston School in Mount Airy and other community schools.

Students will come to the SCH campus for six weeks in July and August where they will participate in a variety of academic and enrichment activities to build reading and math skills along with physical and mental wellness.

Established in 1964, Horizons is a national network of 70+ tuition-free summer programs that deliver high-quality academic and enrichment support for students. Students begin Horizons the summer after Kindergarten and return each summer through 8th Grade.

Learning opportunity gaps between students in different communities have become even more pronounced as a result of COVID-19. By donating to Horizons at SCH on Giving Day, you are helping to create opportunities for students to succeed.

Please support this important resource serving your community.

HORIZONS GIVING DAY
MAY 1-18

$50 Hands-on Learning: Funds supplies for a project-based learning activity.

$100 Building Literacy: Provides a day's support for a Reading Specialist.
